Health Camp Plan Outline

1. Registration & Entry Management

- **One combined Registration Table (Males & Females)**
  - Managed by **general volunteers**.
  - Duties: patient sign-in, issuing tokens/numbers, and directing attendees.
- **Traffic Control Volunteers**
  - Manage patient flow to avoid crowding at tables.
  - Guide participants to appropriate stations (males/females).

---

2. Vitals Stations (2 Tables: Male & Female)

- **Staffing:**
  - **1st & 2nd year medical students** or
  - **Allied health sciences students** (confident in vitals).
- **Parameters to be checked:**
  - Blood Pressure (BP)
  - Blood Sugar (RBS/FBS if possible)
  - Pulse
  - Height
  - Weight
  - BMI (calculated and noted)
  - Temperature
- **Documentation:**
  - Results recorded on a card/sheet given to the patient.

---

3. History Taking Stations (2 Tables: Male & Female)

- **Staffing:**
  - **3rd year onwards medical students only**.
- **Responsibilities:**
  - Collecting relevant medical history (symptoms, past medical/surgical history, medications, allergies, etc.).
  - Document findings to hand over to the consulting doctor.

---

4. Consultation & Counseling by Doctors

- **Separate Consultation Areas for Males & Females.**
- **Consultation Flow:**
  - Doctor reviews vitals + history.

    - Provides medical advice, prescriptions, or referral if needed.
- **Counseling Volunteers:**
    - Guide patients on preventive health, nutrition, lifestyle, and medication adherence.

---

5. Volunteer Recruitment

- **Priority Recruitment from:**
    - Medical Students (all years for relevant roles).
    - Allied Health Sciences students.
- **If insufficient numbers:**
    - Open call for volunteers via **official pages and squad groups**.
- **Volunteer Roles Breakdown:**
    - Registration & Traffic Control → General volunteers.
    - Vitals → 1st & 2nd year medical students / allied health.
    - History Taking → 3rd year onwards medical students.
    - Counseling → Final-year students + practicing physicians.

---

6. Patient Flow (Stepwise)

1. **Registration** → Token assigned.
2. **Vitals** → Measurements taken and documented.
3. **History Taking** → Clinical details noted.
4. **Doctor Consultation** → Review + advice.
5. **Counseling** → Preventive health education.

Supplies checklist:

1. Registration Desk

- Registration forms/slips / tokens
- Tables (1) + Chairs (2–3)

2. Vitals Station (Male & Female – 2 Tables)

- BP apparatus (Digital / Manual + Stethoscope if manual)
- Oximeters
- Glucometers + strips + lancets
- Cotton + alcohol swabs
- Gloves (disposable)
- Sanitizer
- Thermometer
- Weighing machines

- Height measuring scale / stadiometer/ inch tapes
- Patient record/vital forms
- Tissue
- Tables (2) + Chairs (4–6)

---

3. History Taking Station (Male & Female – 2 Tables)

- History taking forms (with sections for vitals attached)
- Tables (2) + Chairs (4)

---

4. Consultation & Counseling Station (Male & Female – 2 Tables)

- Prescription pads & referral slips
- Patient record forms (with vitals + history attached)
- Counseling charts/posters/leaflets (health education material)
- Tables (3-4) + Chairs (6–8, including for doctors)

---

5. General Setup & Waiting Area

- Chairs for waiting patients (as per crowd size)
- Volunteer ID cards/badges
- Pens
- Note pads
- Table sign board
- Directional signboards for smooth flow
- Refreshments/water bottles for volunteers & doctors
- First aid kit (for emergencies at camp)
